

Study Island Arts & Humanities Programs for Elementary and Middle School Students

Challenge your students to think critically and creatively with our Arts & Humanities Package. Comprised of elementary and middle school Fine Arts, Health, Technology, and Works of Shakespeare programs, this package extends learning beyond the state standards to help educate the whole child.

Fine Arts

Help your students develop an understanding and appreciation for fine arts with a broad range of lessons and questions covering topics such as the elements of art, purposes of music, dance concepts and vocabulary, and careers in fine arts.

Learning Strands Covered:

- Visual Arts
- Music
- Dramatic Arts
- Dance
- Connections to Fine Arts

Health

Since making healthy choices is an important part of every child's education and well-being, our program is designed to teach and reinforce lifelong health knowledge and skills such as nutrition and wellness strategies.

Learning Strands Covered:

- Concepts of Health
- Safety, Prevention, and Response
- Influences and Information
- Physical Activity and Movement Concepts

Technology

Ensure that your elementary and middle school students master basic elements of technology, such as working with word processing operations and practicing ethical and safe behavior.

Learning Strands Covered:

- Computer Skills
- Telecommunications
- Ethical Issues
- Technology in Society

Works of Shakespeare

Covers the major themes and historical context of William Shakespeare's works

Works:

- Romeo and Juliet
- Hamlet
- A Midsummer Night's Dream
- Twelfth Night
- Macbeth
- Julius Caesar

Topics Include:

- Basic Comprehension
- Synopsis
- Literary Analysis
- Making Connections
- Vocabulary
- Historical Context and Drama
- Contextual Information
