My vision for the MESPA President-Elect position is:

My vision is to support the strong work of the MESPA Board supporting our principals. I believe strongly that a cohesive group of leaders and educators can do tremendous things to further educational change within our systems. Having a committed team that pushes each other to be better, grow stronger, lead with kindness and focus on students, only makes MESPA a better collective. I envision MESPA growing in the way it offers PD opportunities to principals of all points in their careers. I love what we do and only want to help it grow.

I should be selected as a candidate for MESPA President-Elect because:

I take this role seriously yet also know it cannot be done alone. I should be selected because I am committed to the work of MESPA, finding ways to help grow in the way we look at community, communication and professional development. I love working in a team to listen to members, find solutions and provide services that make MESPA a must-have for the members it serves. I love being a principal and believe strongly that having a strong MESPA only makes our jobs better. It's not always easy doing this job but having a resource like MESPA is invaluable. I want to continue this work. It would be an honor to lead.
